TROUBLESHOOTING

Images

- See separate Image instructions for troubleshooting

Delays/Freezing

If an entrant is experiencing delays or lost data it could be for one of the following reasons:

- Connection speed
 - Connection speed and connection reliability is by far and wide the biggest source of problems in the Awards world. And it has to do with uploading of data. Most internet service providers will give you decent download speeds – so streaming something like Netflix or social media will be fine; but upload speeds tend to be much slower. And this is particularly articulated when you're uploading images. It is quite common to throttle upload speeds especially when multiple people are using the same wifi access point; and

this is particularly true of accommodation establishments where wifi is often strained when used by multiple staff and/or guests of the establishment.

- One of the simplest solutions is to plug in a LAN cable into the laptop. A cable is hugely faster than going over wifi, especially when that wifi is already under pressure by multiple people.
- Images may be too large
 - If images are larger than the recommended size (Images must be no bigger than 10MB each in jpeg format - preferably 500dpi files and 1920 x 1080.) then it won't get uploaded
 - Resizing images to a modest size before uploading is recommended. Also recommend to wait until an image has finished upload before starting on the next one.
- Pasting
 - Another thing QLBS have noticed is that entrants tend to put their submission into a Word document, and then copy and paste from the Word document into the submission. This is actually a good thing – but the problem comes in with the amount of stuff they are trying to paste in all at once. Often they're copying and pasting a page of text, with multiple images all at the same time – and trying a single paste operation to get it all into the response - and their upload bandwidth can't cope. It's advisable to upload one section at a time. Do not try and copy text along with images.
 - Pasted from websites is quite common too – and often this has similar issues as there's styling and hidden characters in a website that adds to what is being pasted.
 - Pasting is fine, when done in moderation. One section at a time, or a piece of text at a time – not multiple elements because unless you have a very good internet connection – it will create problems. Also, only from word or other text based program, not from a website.
- Multiple people working on the same submission can override other's work
- Modern operating systems
 - It is advised not to try filling in an Awards submission from their phone. Laptops are the best medium. QLBS are aware of at least one entrant that was still using a Windows 8 machine and Internet Explorer this year – so it's worth checking that people are on a modern operating system (like Windows 10) with a modern browser e.g. Chrome/Firefox/Edge for best experience.

If none of the above are the issue, send the problem to your Program Manager with the following information:

- Business name
- Which submission (if more than one)
- Device and browser type used
- Specific issues e.g. connection keeps timing out, freezing, losing information that was saved
- Any images to demonstrate what the issue is or a word of source document that the entrant are working from.
